Dual Enrollment Consent Agreement

Dual Enrollment Eligibility

Courses are provided through the Dual Enrollment program for qualified students enrolled in a public state college, university, or technical center as prescribed in Chapter 87-212, Laws of Florida. Courses taken by Dual Enrolled students are applicable toward a high school diploma.

All Dual Enrollment courses are college-level coursework with college-level expectations. Please be aware that:

- All grades become a part of the student's permanent college transcript, and poor grades can affect future college **admissions and federal financial aid eligibility.**
- Students should expect two to three hours of homework and study time for each credit hour taken each semester.
- Any letter grade below a "C" will not count as credit toward General Education or Gordon Rule requirements.
- Students will need written permission from a high school counselor in order to withdraw from Dual Enrolled classes. Add/Drop and withdrawal deadlines are posted in the college catalog. Dual Enrollment students follow the same academic calendar as all Daytona State College students.
- Course materials or class discussions may involve topics not typically included in secondary courses, and **which some parents may find objectionable. Courses are not modified to accommodate variations in student** age and maturity.
- Students must consult a DSC Academic Advisor regarding the selection of courses, both to meet their degree requirements and to ensure effective transfer to their planned university course of study.
- **Students who have earned AP credit must send official AP transcripts to the college.**

By signing this form:

Parent/Guardian

I give my child permission to participate in Dual Enrollment courses at Daytona State College. I understand that Dual Enrollment courses are governed by the terms of an articulation agreement with my school. I am aware that I may not access my student's college records, including attendance, grades, and any other non-directory information, unless the student follows procedures to provide delegated access to allow parental permission, as described in the Family Educational Rights and Privacy Act (FERPA).

Student

I agree to abide by the terms and conditions of the dual enrollment agreement, which is incorporated into this application by reference and available on the Daytona State College website.

- I accept responsibility for my own transportation to the campus where my classes are being held.
- I understand that availability of classes is subject to the number of seats available.
- I agree to abide by both Daytona State College and high school rules and policies. I am aware that inappropriate conduct will result in administrative withdrawal from Daytona State College coursework and other possible consequences.
- I understand that I am obligated to review and follow the attendance policy of each class' syllabus.
- I understand that any grades become a permanent part of both my high school and college records. I authorize Daytona State College to forward my placement test results, my class schedule, and my grades to my high school.
- I understand that class registration activity is between the student and Daytona State College, not the student and the high school.
- It is the student's responsibility to initiate any enrollment action, such as registration, drop, or withdraw from courses.

Dual Enrolled students who are unable to maintain the minimum eligibility requirements for the Dual Enrollment program, including high school GPA, college GPA, and satisfactory course completion, will not be allowed further participation in the program. Note that home schooled students are exempt from the high school GPA requirement.
