MEDICINE MAN

SCIENCE MOVIE NIGHT
What is the price of scientific progress?
What was Dr. Campbell searching for?
Who funded him?
Why did he resent Dr. Crane?
What affect did he have on the natives near his camp (e.g. how did he employ the children)?
What effect had he had on the last village he had visited?
Why had the Europeans he brought been immune to swine flu whereas the Native Amazonians had not?
Where did the Amazonian medicine man go and why?
What did the advancing bulldozers in the background signify?
How did Campbell and Crane find the cancer cure?
What happened to ruin their chance of replicating their discovery?
Is it possible for science to visit pre-scientific cultures without destroying them?
