### Unit 1: Workplace Essentials

Provides training on the workplace skills needed in the manufacturing community to sustain the day-to-day success of their organizations.

### Unit 2: Safety Awareness

Provides baseline knowledge and skills needed to maintain a safe and productive work environment and ensure the safe use of equipment in the workplace.

### Unit 3: Production and Processes

Develops existing knowledge and skills needed for the production of products to meet customer needs while ensuring the manufacturing process meets business requirements.

### Unit 4: Maintenance Awareness

Provides the core knowledge of preventive maintenance and enhances existing skills in the identification and performance of equipment maintenance used in the production process.

### Unit 5: Quality

Enhances existing knowledge and skills needed to maintain quality and implement continuous improvement processes, and ensure that product and process variances meet quality standards.

### ASSESSMENT AND CERTIFICATION

The MSSC offers four computer-based assessments. Individuals earn a certificate for each test they pass and earn the full MSSC Certified Production Technician (CPT) Certification when they pass all four tests. Daytona State College is a certified MSSC Assessment Center.
