Daytona State Leverages Taxpayer Dollars

- An estimated 95% of Daytona State students remain in Florida and contribute to economic growth. Students who enter the workforce expand the tax base by generating higher earnings and reducing social costs.

- Higher student earnings and associated increases in property income generate about $12.1 million in added tax revenue each year.

- State government will save approximately $531,000 in avoided social costs each year, including savings associated with improved health, lower costs of law enforcement, and fewer welfare claimants.

Daytona State Generates a Return on Public Investment

- State government allocated about $55.9 million in support of Daytona State in FY 2011-12.

- For every dollar appropriated by state government to Daytona State, taxpayers will see a return with a cumulative added value of $3.20 in the form of higher tax revenues and avoided social costs.

- State government will receive a rate of return of 10.0% on their investments in Daytona State.

Economic Modeling and Strategic Planning Tools

EMSI is a leading provider of socioeconomic impact and strategic planning tools to community and technical colleges in the US and Canada. Visit us at www.economicmodeling.com for more information. To see full documentation of the study, please contact the college.
