Herman Boone faced the challenge of a lifetime in 1971. Racial tensions ran high in Alexandria, VA, as three schools were newly integrated to form the T.C. Williams High School. It was from this union that the Titan football team was created. The former rivalries between the schools, coupled with the strain between the black and white players, resulted in a team that was far from unified. This was the setting for the Disney film, “Remember the Titans,” starring Denzel Washington.

Washington played the role of Boone, who was an assistant coach of the former T.C. Williams High School. Racial tensions rose when Boone was selected as head coach of the Titans, passing over Bill Yoast, the local favorite and successful head coach of the former all-white Hammond High. Yoast's supporters were angered by Boone's appointment, which was seen as a gesture of goodwill to the black community.

Remarkably, the two coaches were able to put aside their prejudices, and in doing so they unified their players to form a team whose common vision was to respect each other and win football games. At the same time, through the game of football, Boone and Yoast were able to help their small Virginian community put aside their intolerance and support their children. The Titans became one of the best teams in Virginia, compiling a 13-0 record, and went on to win the state championship.

Boone is now retired, but continues to motivate and inspire audiences with presentations on respect, teamwork, community involvement and the importance of character, among others.

FACULTY

The academic robes and hoods which the faculty wears lend color to the pageantry of the commencement exercise. This tradition dates from the medieval ages when the regalia served a functional and ornamental role, separating the learned men from other groups and also providing warmth and protection.

Black is the standard color for bachelor's, master's and doctor's robes. The master's gown is recognized by the unusual oblong sleeves which are open at the wrists. The doctor's gown is adorned with velvet panels and sleeve chevrons in the color representing the graduate's discipline. Academic hoods represent the scholastic degree, discipline and alma mater. The color of velvet edging the hood indicates the discipline of the degree, while the hood itself is lined with the official color of the college or university conferring the degree.

Graduates of foreign universities or religious orders wear the complete academic costume as decreed by the conferring institution. The following are the colors, and their respective disciplines, which adorn the hoods the Daytona State College faculty wear during the academic procession:

ACADEMIC MACE

Created in 2001 by faculty and students in the Daytona State College Industrial Technologies, Training and Apprenticeships Division, the Academic Mace is made of cherry wood, brass, stainless steel and is topped with an alum replica of the Presidential Medallion for Teaching Excellence.

The first dated record of the academic mace goes back to 1385 at the University of Vienna. The academic mace is traditionally carried in procession and mounted on stage whenever degrees are granted or when the faculty is assembled in formal dress.
Every effort is made to include all candidates for graduation, however; students applying for graduation after the posted deadline may not appear in this program.

Our thanks to all of the faculty, staff and student volunteers, parents and community supporters. We are grateful to you for participating in and attending this special commencement ceremony.
