Student Acknowledgment – Spring 2021 Semester

As a student of Daytona State College, I understand the requirements to attend classes on campus. If I enroll in courses that meet on campus, I agree to abide by the following requirements:

Each of the following requirements is based on current CDC recommendations. Requirements may be adjusted as additional CDC recommendations are released.

- I will wear a mask or face covering upon entering any building and while in classrooms, hallways, restrooms, travel to and from class, etc. This includes outdoor settings where social distancing cannot be maintained. Masks or face coverings can be simple, homemade coverings, and do not need to be medical grade. All face coverings (whether disposable or reusable) must be made with at least 2 layers of breathable material and fully cover the nose and mouth. At this time, based on guidance from health authorities, single layer coverings, open-chin triangle bandanas and masks with holes or vents of any kind are not appropriate face coverings. The CDC has released guidelines on face coverings (<https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/cloth-face-cover-guidance.html>).
- I understand that masks are required on campus. Students with pre-existing health conditions that prohibits them from wearing a mask, should take classes online or contact Counseling and Accessibility Services at (386) 506-3238.
- Gloves are not required to be worn.
- I will practice social distancing techniques and stay at least 6 feet apart from other people.
- I will practice regular handwashing. The College will have hand sanitizers available in buildings and classrooms.
- I will not share tools or equipment in the classroom unless absolutely necessary. In the event sharing of tools is necessary, I will follow proper sanitizing protocols.
- If I have any symptoms such as a fever, cough, loss of taste or smell, or cold-like or flu-like symptoms, I will follow the CDC guidelines, immediately remove myself from class, and notify my instructor. The Office of Student Development will track each case and will notify me when I am cleared to return to campus. I may return to campus when:
 - At least 10 days have passed since my symptoms first appeared

AND

- I have had no fever (100.4°F or greater) for at least 24 hours (that is one full day of no fever without the use of medicine that reduces fevers)

AND

- Other symptoms have improved (for example, cough or shortness of breath have improved)

Note: You may not return to campus until you have been contacted and cleared to do so by the Office of Student Development.

- If I have a confirmed case of COVID-19, I will follow the CDC guidelines, immediately remove myself from class, and notify my instructor. The Office of Student Development will track each case and will notify me when I am cleared to return to campus. I may return to campus when:
 - At least 10 days have passed since my positive test results

AND

- I have had no fever (100.4°F or greater) for at least 24 hours (that is one full day of no fever without the use of medicine that reduces fevers)

AND

- Other symptoms have improved (for example, cough or shortness of breath have improved)
- If I have come in close contact with anyone who has a confirmed case of COVID-19 I will follow the CDC guidelines, immediately remove myself from class, and notify my instructor. A close contact as defined by the CDC is any individual who was within 6 feet of an infected person for at least 15 minutes (cumulative over a 24-hour period), provided care at home to someone who was sick with COVID-19, had direct physical contact (hugged or kissed) someone with COVID-19, shared eating or drinking utensils, or was sneezed on, coughed on, or got respiratory droplets on them from someone with COVID-19 (<https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/quarantine.html>), “irrespective of whether the person with COVID-19 or the contact was wearing a mask” (<https://www.cdc.gov/coronavirus/2019-ncov/php/public-health-recommendations.html>), starting from 2 days prior to illness onset or a positive test. The Office of Student Development will track each case and will notify me when I am cleared to return to campus. I may return to campus when:
 - I self-isolate for 10 days with no symptoms.

OR

- I self-isolate for 7 days with no symptoms and I have a negative diagnostic test taken within 48 hours of Day 7.

Note: You may not return to campus until you have been contacted and cleared to do so by the Office of Student Development.

- If any of the three situations occur, I will stay in contact with Student Development to update them on the current status of my case.
- If I have a lab confirmed, positive viral test for COVID-19, my close contact classmates may be contacted and informed, though my personal information will not be shared.
- The College will provide accommodations, to the extent possible, to make up work missed due to illness.
- I understand that many courses are available online.
- I understand that the College is providing the safest environment possible and acknowledge that all risks cannot be eliminated.

I understand that if I fail to comply with any of the above requirements that I may be removed from the classroom or lab and may not have another opportunity to finish the course this semester.

Please see additional information from the CDC on the website below:
