It is not necessary to have approval from the instructor to withdraw from the course, but you should discuss the situation with the instructor prior to any action. Many times issues and concerns can be resolved with communication. Please review **Refund/Repayment Policy** and also check with the Office of Financial Aid to determine how this withdrawal might affect your current and future aid eligibility.

**Student Rights & Responsibilities**

Students are responsible for reading and following all college policies outlined in the Student Handbook. Some of the most important are summarized below. The Handbook can be accessed at [http://www.daytonastate.edu/academics.html](http://www.daytonastate.edu/academics.html) under “Student Resources.”

**Academic Integrity**

In order to preserve academic excellence and integrity, the College expects you to know, understand, and comply with the Academic Integrity Policy, which prohibits academic dishonesty in any form, including, but not limited to, cheating and plagiarism. Grades conferred by instructors are intended to be, and must be, accurate and true reflections of the coursework actually produced and submitted by you.

**Forms of Academic Dishonesty**

**Cheating** - Cheating can be defined as: receiving or giving unauthorized assistance on a quiz, test, exam, paper, or project or unauthorized use of materials to complete such; collaborating with another person(s) without authorization on a quiz, test, exam, paper, or project; taking a quiz, test, or exam for someone else or allowing someone else to do the same for you.

**Plagiarism** - Plagiarism can be defined as: submitting work in which words, facts, or ideas from another source are used without acknowledging that the material is borrowed whether from a published or unpublished source. For specific information on how to document information from other sources, students should check with their instructors, academic departments, or a recognized writing manual, such as the MLA or APA.

**Self-plagiarism** - Recently the idea that students can plagiarize themselves has surfaced. When students turn in the same assignment for two different classes, they are self-plagiarizing. This rule also applies to sections of an assignment. Not only does ‘repurposing’ assignments deny students the opportunity to learn, but also it is not fair according to the college’s standards. Because of this, self-plagiarizing is coined ‘double-dipping,’ which leads to devaluation of grades and therefore, a devaluation of the College. Daytona State College prohibits self-plagiarism.

**Online Academic Integrity Violations** - These violations include, but are not limited to the following: sharing your Falcon Online password, working on an assignment with someone else when it is supposed to be done on your own, looking at someone else’s work while taking a quiz or exam, using a cell phone to share quiz or exam information, revising a paper that was found on the Internet, or submitting a paper purchased form a website.

**Fabrication** - Fabrication can be defined as: listing sources in a bibliography that one did not actually use in a written assignment; presenting false, invented, or fictitious data/evidence in a written assignment.
Other Academic Misconduct: Other Academic Misconduct might include, but is not limited to:

- In a testing situation, conduct, such as, looking at a classmate's test, talking to a classmate, or leaving the classroom without the instructor's or proctor's permission.
- Obtaining help while taking online tests or quizzes in the form of another person consultation, Googling for answers, texting, or using other social media.
- Obtaining part or all of a test by theft/purchase, OR selling /giving part of all of a test to someone else.
- Soliciting someone to impersonate you online or in a classroom setting.
- Entering an office or building for the purpose of changing a grade on a test, assignment, or in a grade book or for the purpose of obtaining a test.
- Altering or attempting to alter academic records of the College which relate to grades; being an accessory to same.

Honor Pledge: I, as a member of the DSC community, pledge that I will neither give nor receive unauthorized aid in my work nor will I present another’s work as my own, nor will I tolerate anyone who does. For more information on academic integrity, view Honor Code.

HOW TO SUCCEED IN THIS COURSE

Time Management - Set a schedule for reading, studying, participating in the discussion forum, and completing assignments. Allow sufficient time for the cases. Stick to your schedule. Stay on task.

Work Through the Course Content – Your textbook is integrated into the ORION Study Plan alongside a personal pretest that will determine your level of understanding of the chapter and create a customized study plan to help you master the chapters concepts.

Get Involved in Your Class - Form a study group, ask questions in our discussion forum, and help other students. Don’t forget about your weekly attendance/participation points.

Go online OFTEN – Make it a habit to check our classroom often. Read news, read all new posts and keep informed about what’s going on. Use the UNGRADED Discussion topics to ask questions about course content or assignments.

Seek Assistance when Needed – Daytona State’s Academic Support offers help as well as your instructors office hours. Excel is installed on all the computers in the ASC and Library, and we also have tutors to help you with assignments. See our online classroom for more info.

ONLINE PROTOCOLS

Protocols are the correct procedures for doing things. We need them for this class so that everyone knows what is expected of them, and so that everyone plays by the same rules.

Virtual Classroom Expectations

The following ground rules will help your work in this course to go much more smoothly. Please carefully review these expectations and follow them.

1. Academic integrity will be appraised according to the student academic behavior standards outlined in the Daytona State College Student Handbook. Keep up with the reading. Make sure you keep up with your online discussions and utilize our online classroom’s tools.

2. Work with others. You are encouraged to form study groups (online and/or in person), and participate in the Graded Discussion Forum.

3. Network Acceptable Use Policy: Be certain to familiarize yourself with the College's policies governing the usage of your online account. You must view this document located at http://online.daytonastate.edu/docs/acceptable_use.pdf
News, e-mail from your instructor, and discussion forums
When you sign into the classroom, check the class news on the front page. Important announcements will appear there. Also, check your e-mail for messages from your instructor.

1. Check the News, read all discussion posts and check your e-mail every time you sign in. You should sign in at least five days a week.
2. Be patient. Do not expect an immediate response when you send a message. Generally, two days is considered a reasonable amount of time to receive a reply.
3. Always put ACG2021 and Sec 503A in the subject line and your FULL NAME in the body of the message.
4. Be courteous and considerate. Being honest and expressing your position thoroughly is very important, but being considerate of others online is just as important as in the classroom.
5. Make every effort to be clear. Online communication lacks the nonverbal cues that fill in much of the meaning in face-to-face communication.
6. Do not use ALL CAPS. This is considered “shouting” and the message is very hard to read. Check spelling, grammar, and punctuation (you may want to compose in word processing software then cut and paste the message into the discussion or e-mail).
7. Break up large blocks of text into paragraphs and use a blank line between paragraphs.
8. If you have a question regarding the course material, post the question in the Discussion Forum under the appropriate chapter/topic. Other students will appreciate seeing the question and your instructor’s answer. Students are encouraged to respond to other students’ questions. Learning by teaching is a powerful tool.
9. Never assume that your e-mail can be read by no one except yourself; others may be able to read or access your e-mail. Never send or keep anything that you would not mind seeing on the evening news.
10. Please keep all postings professional. Correct grammar and spelling are an important part of the business environment. Review your comments before you post them. Write as though you were sending the correspondence to an officer of your company.
