High School Name: **John F. Kennedy High School**

Am I on Track for College?
Look for the green, yellow, or red symbols next to your section scores. They let you know if your scores are at or above the benchmark scores. Benchmarks show college readiness. If you see green, you're on track to be ready for college when you graduate.
If you score below the benchmark, you can use the feedback and tips in your online report to get back on track.
Benchmark scores:
Evidence-Based Reading and Writing: 470
Math: 530

How Do My Scores Compare?
A percentile shows how you scored, compared to other students. It's a number between 1 and 99 and represents the percentage of students whose scores are equal to or below yours.
For example, if your Math percentile is 57, that means 57% of test takers have Math scores equal to or below yours.
The Nationally Representative Sample Percentile compares your score to the scores of typical U.S. students.
SAT® User Percentile compares your score to the scores of students who typically take the test.

How Can I Improve?
To see which skills are your strongest and what you can do to boost your college readiness, go to your full report online and look for Skills Insight™.

What Are Score Ranges?
Test scores are single snapshots in time—if you took the SAT once a week for a month, your scores would vary. That's why score ranges are better representations of your true ability. They show how much your score can change with repeated testing, even if your skill level remains the same.
Colleges know this, and they get score ranges along with scores so they can consider scores in context.
Your online score report shows your score ranges.

Your Total Score
1010 | 400–1600
50th Nationally Representative Sample Percentile | 36th SAT User Percentile

Essay Scores
4 | 2–8 Reading
4 | 2–8 Analysis
4 | 2–8 Writing

Section Scores
490 | 200–800
Your Evidence-Based Reading and Writing Score
44th Nationally Representative Sample Percentile | 31st SAT User Percentile
520 | 200–800
Your Math Score
57th Nationally Representative Sample Percentile
