Programs

[6331 - Bachelor of Science in Engineering Technology \(BSET\)](#)

[6333 - Bachelor of Science in Engineering Technology - Electrical Engineering Technology Concentration](#)

Action Items from Last Assessment Day

Assessment Day (03/26/2018)

- Review CET3116 content and course offering
- Develop a Qualtrics alumni survey
- Review the statistics and programming pre-requirements
- Measure the courses that are part of the certificates, and include them in the assessment report
- ABET report (July) prior to ABET's visit (October)

For Institutional Research:

- Clearinghouse data (IR)
- List of students' retention by race/ethnicity FA-FA (IR)

Program Educational Objectives (PEO)

1. Career: Graduates will have a broad understanding of the key principles and practices of engineering technology, the written and oral communications skills, and the ability to work with others to apply these skills and knowledge to the design, implementation, and maintenance of systems.
2. Skills: Graduates will have an understanding of the mathematical and scientific concepts that underlie engineering technology applications, will apply this understanding, and acquire new skills and knowledge necessary to analyze technology problems and develop suitable solutions.
3. Professionalism and Ethics: Graduates will have an understanding of the ethical, human, and social issues of their field and will be involved members of the local and global communities acting as responsible technical professionals.
4. Life-Long Learning: Graduates will be active contributors to their profession with a strong commitment to continuous individual and organizational improvement, effective communication, teamwork, quality, and timeliness.

Program Learning Outcomes

BS Engineering Technology (BSET) # 6331

BS Engineering Technology with Electrical Engineering Technology Concentration #6333

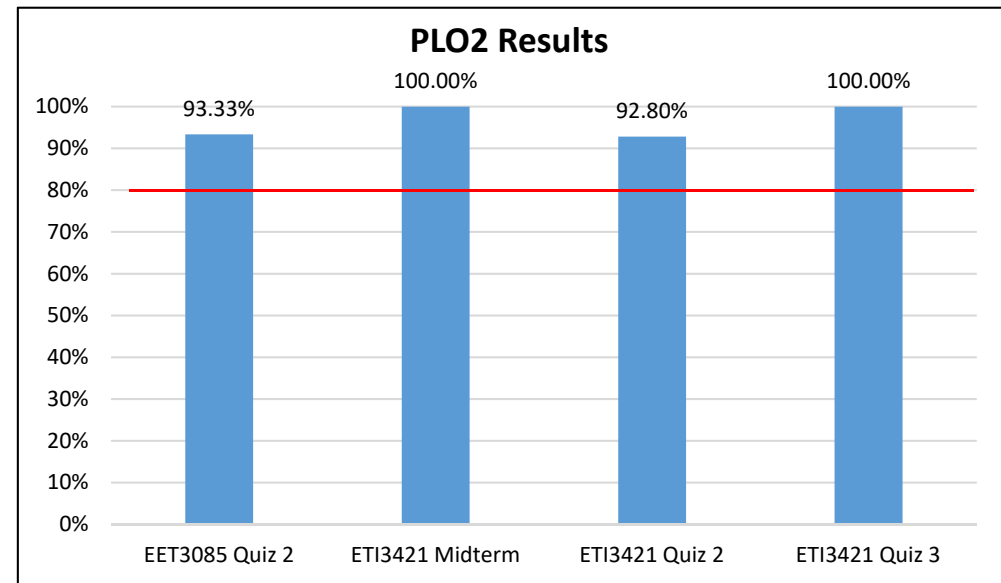

Graduates of the program will be able to:

1. Demonstrate an ability to select and apply the knowledge, techniques, skills, and modern tools of the discipline to broadly-defined engineering technology activities.
2. Demonstrate an ability to select and apply a knowledge of mathematics, science, engineering, and technology to engineering technology problems that require the application of principles and applied procedures or methodologies.
3. Demonstrate an ability to conduct standard tests and measurements; to conduct, analyze, and interpret experiments; and to apply experimental results to improve processes.
4. Demonstrate an ability to design systems, components, or processes for broadly-defined engineering technology problems appropriate to program educational objectives.
5. Demonstrate an ability to function effectively as a member or leader on a technical team.
6. Demonstrate an ability to identify, analyze, and solve broadly-defined engineering technology problems.
7. Demonstrate an ability to apply written, oral, and graphical communication in both technical and non-technical environments; and an ability to identify and use appropriate technical literature.
8. Demonstrate an understanding of the need for and an ability to engage in self-directed continuing professional development.
9. Demonstrate an understanding of and a commitment to address professional and ethical responsibilities including a respect for diversity.
10. Demonstrate a knowledge of the impact of engineering technology solutions in a societal and global context.
11. Display a commitment to quality, timeliness, and continuous improvement.

Assessment Results

PLO1: Demonstrate an ability to select and apply the knowledge, techniques, skills, and modern tools of the discipline to broadly-defined engineering technology activities. *Target: 80% of the students achieving 75% or higher in all assessment measures*

PLO2: Demonstrate an ability to select and apply a knowledge of mathematics, science, engineering, and technology to engineering technology problems that require the application of principles and applied procedures or methodologies. *Target: 80% of the students achieved 70%75% or higher in all assessment measures*

PLO3: Demonstrate an ability to conduct standard tests and measurements; to conduct, analyze, and interpret experiments; and to apply experimental results to improve processes. *Target: 80% of the students achieved 70% or higher in all assessment measures*

PLO4: Demonstrate an ability to design systems, components, or processes for broadly-defined engineering technology problems appropriate to PEO. *Target: 80% of the students achieved 70% or higher in all assessment measures*

Assessment Results

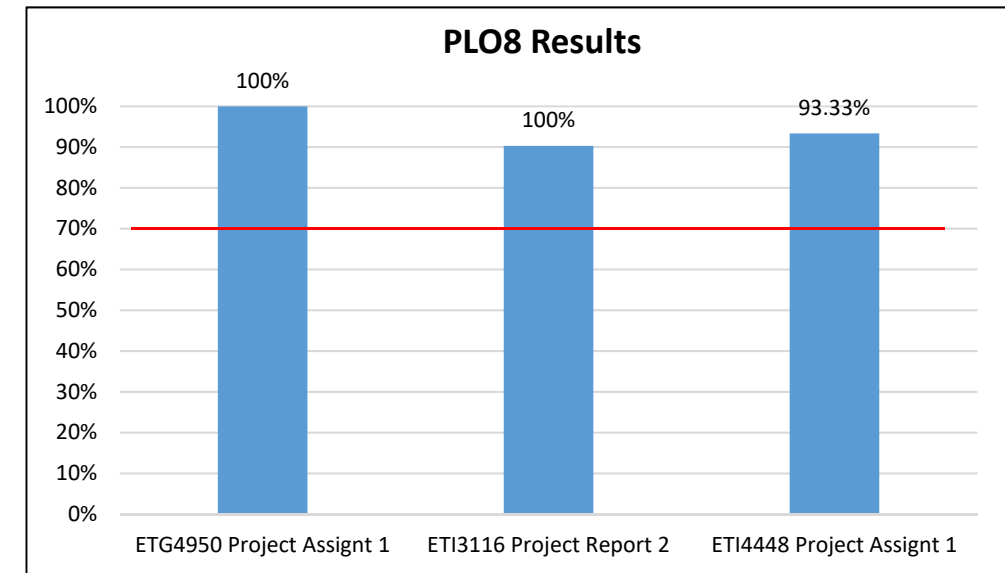

PLO5: Demonstrate an ability to function effectively as a member or leader on a technical team. *Target: 70% of the students achieved 75% or higher in all assessment measures*

PLO6: Demonstrate an ability to identify, analyze, and solve broadly-defined engineering technology problems. *Target: 70% of the students achieved 70% or higher in all assessment measures*

PLO7: Demonstrate an ability to apply written, oral, and graphical communication in both technical and non-technical environments; and an ability to identify and use appropriate technical literature. *Target: 80% of the students achieved 75% or higher in all assessment measures*

PLO8: Demonstrate an understanding of the need for and an ability to engage in self-directed continuing professional development. *Target: 70% of the students achieved 75% or higher in all assessment measures*

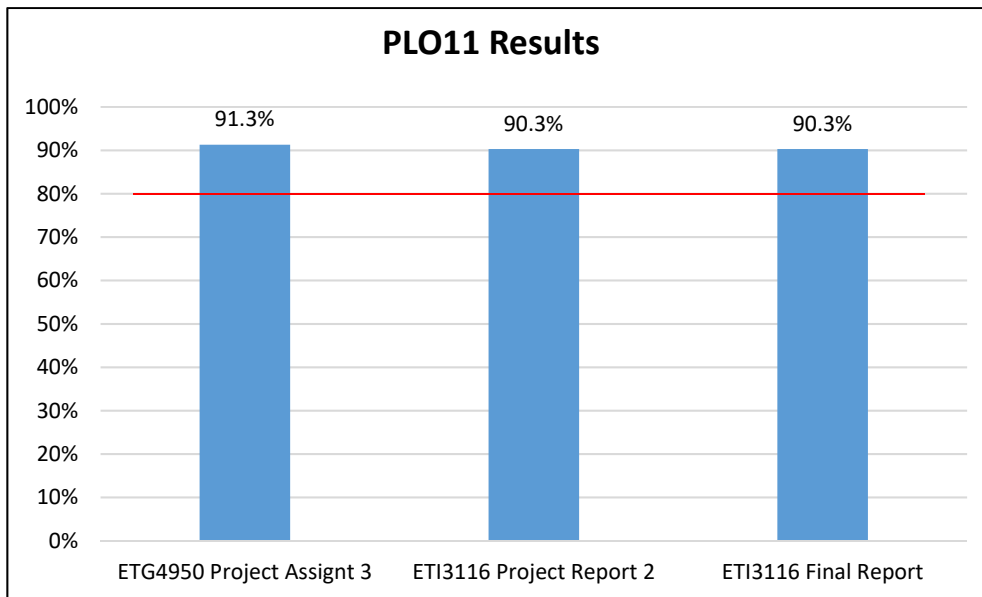

Assessment Results

PLO9: Demonstrate an understanding of and a commitment to address professional and ethical responsibilities including a respect for diversity *Target: 80% of the students achieved 75% or higher in all assessment measures*

PLO10: Demonstrate a knowledge of the impact of engineering technology solutions in a societal and global context. *Target: 80% of the students achieved 75% or higher in all assessment measures*

PLO11: Display a commitment to quality, timeliness, and continuous improvement. *Target: 80% of the students achieved 75% or higher in all assessment measures*

College average (67.1%)

Registered - Includes all students enrolled in the fall term of the specified year, with the specified program as their primary major.

Exclusions - Includes students who are deceased or graduated fall of the specified year or the following spring or summer.

Not retained - Students who were not registered the following fall term.

Retained by DSC - Students who were still registered at DSC the following fall but with a different primary major.

Retained by Program - Students who were registered the following fall with the same primary major.
