Daytona State College and Palmer College of Chiropractic have partnered to provide Daytona State students with a seamless path to a career in chiropractic.

Daytona State’s Pre-Chiropractic Curriculum offers a course of study that allows students to earn their Associate of Arts degree and Bachelor of Applied Science degree, and to ultimately earn the pre-requisite credits required for admission to Palmer.

Your Pre-Chiropractic Program of Study at Daytona State College explained in this brochure is the recommended course of study to meet the prerequisite requirements to enroll at Palmer College of Chiropractic. Additional items required:

- 3.0 GPA or greater on a 4.0 scale*
- 24 semester hours in life and physical sciences, half with labs
- Official transcript and favorable background check review
- Intent to Participate Form
- Palmer College of Chiropractic Application

Other course selections may be acceptable; however, please check with the Palmer Admissions Office before registering for classes other than those listed.

The state of Florida requires all chiropractors to possess a bachelor’s degree to be licensed to practice. Daytona State’s BAS in Supervision and Management degree offers the most affordable and convenient baccalaureate degree option available in our region.

What is Chiropractic?
Chiropractic is a health-care profession based on the principle that the body has the inherent ability to maintain and restore its own health. The science of chiropractic emphasizes the relationship between structure, primarily of the spine and the nervous system, and how that relationship affects function and health.

Doctors of chiropractic focus on patients’ health rather than disease and provide natural, non-invasive care. Care can include: chiropractic adjustments, rehabilitation and therapies, soft tissue work, nutrition, exercises and physiotherapies.

More people are seeking natural ways to heal and thrive and they’re turning to doctors of chiropractic for their care. According to the Occupational Outlook Handbook from the U.S. Department of Labor’s Bureau of Labor Statistics, chiropractic employment is expected to increase between 17 percent through 2024 as consumer demand for alternative health care grows.

About Palmer College of Chiropractic
Palmer College of Chiropractic is where chiropractic began. It was founded by the discoverer of chiropractic, D.D. Palmer, in 1897. With three campuses to choose from, Palmer is the leader and the largest chiropractic college in the profession.

Palmer’s faculty members are accomplished professors and researchers who are recognized as some of the best in the profession. Many of them continue to practice chiropractic as well as teach, so they bring alumni make up one-third of chiropractors currently in practice worldwide.

Due to the College’s esteemed reputation, many patients seek out Palmer graduates for their health care.

Plan of study
To take advantage of Daytona State College and Palmer College’s curriculum pathway, interested students must:

- Complete the required prerequisites during your associate program
- Communicate with your adviser and declare your interest in the pre-chiropractic curriculum program during your associate program tenure
- Sign declaration form prior to entering your Bachelor of Science program

Summary of Degree

**Associate of Arts Degree**—62 credits (inclusive of science prerequisites, see “Acceptable Prerequisite Science Coursework” section)

**Bachelor of Applied Science**—42 credits

*Doctor of Chiropractic transfer credit—16 credits

**Bachelor of Applied Science in Supervision and Management**—Total 120 credits

*Student completes 16 hours of occupational credits from the chiropractic concentration coursework, which transfers back to DSC to complete graduation requirements for the BAS degree. Typically, it takes at least one year of full-time study (four quarters) at Palmer College of Chiropractic to complete needed coursework for DSC to confer the Bachelor’s degree. Student will be required to request official transcripts from Palmer College of Chiropractic to be sent to DSC for review and credit evaluation. The Bachelor’s degree will be awarded by DSC per their approval and graduation schedule.*
