QUANTA-HONORS COLLEGE

Everything you need to know
Interdisciplinary – We think across the usual boundaries between courses.

Learning community – We all work together toward the same end. We all have something to contribute.

Take the college journey with friends and support.
HOW IT WORKS

- Course clusters of 6 to 9 credit hours
- Classes are integrated around a theme
- One set of readings for all three classes
- Small-group structure
- Three professors in the room
GENERAL EDUCATION REQUIREMENTS

- Designed to meet college general education requirements for A.A.
- Courses meet requirements for transfer under agreements with universities
- Complete a Honors College degree with GPA of 3.2
- Take pre-requisites for majors outside Quanta-Honors program
BENEFITS FOR STUDENTS

- Make friends
- Get to know your professors
- Work in a state-of-the-art classroom
- Learn to think broadly and critically about important issues
- All courses count toward A.A. degree
Higher retention rates

Higher grades

Help planning for transfer to Bachelor’s programs

The kind of experience you usually only get in small, private, liberal arts programs
MOST IMPORTANT

- Automatic 10 percent tuition scholarship from Daytona State

- Reduced book cost with iPad materials – $1000+

- Articulation agreements for automatic transfer to Stetson University, Eckerd College, or Burnett Honors College at UCF

- Stetson transfer includes financial package equal to 100% of tuition and fees for any major

- Special scholarship at Eckerd College
