1 Day Specialized Course
$ 150.00
March 20, 2017  8:00 am - 4:00 pm

Presenter Scott Byington will educate officers, detectives, narcotic agents, probation / correction about the exploding trend of synthetic opioids. Many jurisdictions around the country are already affected by illicit Fentanyl, W-18/ Carfentanyl, and U-47700. The course covers what these dangerous substances are, what they look like, where they come from and how to protect yourself from potentially deadly contact. The instructor will provide information on how to initiate and safely investigate cases involving these substances that are up to 1000 times more potent than other narcotics on the street.

Some of the topics include:
- A description of pharmaceutical and Illicit Fentanyl and its analogs
- Concerns, issues and safety precautions for law enforcement, investigators and EMS personnel
- Identifying and protocol for labs/pill press operations
- Sources and distribution methods

President of the Utah National Association of Drug Diversion Investigators, Detective Byington has provided pharmaceutical investigation training for the Utah Narcotics Officer Association, Utah Pharmaceutical Drug Crime Project, National Association of Drug Diversion Investigators, United States Air Force and Army, National District Attorney’s Association, Association of Public Safety Communications Officials and lectures at regional schools, hospitals, and clinics. Detective Byington received a Bachelor of Science degree in Business Logistics from Weber State University. He has dismantled multiple drug trafficking organizations including a white supremacy pharmaceutical DTO responsible for forging prescriptions and distributing over 15,000 pills in a three month span. Scott also identified and dismantled an Oxycodone drug trafficking organization operating in multiple states. In 2012, Scott was selected by Rocky Mountain HIDTA (High Intensity Drug Trafficking Area) as the Drug Enforcement Officer of the Year.
